

Rutgers, The State University of New Jersey
Institutional Profile Report

Section A

Introduction and Accreditation Status

Rutgers, The State University of New Jersey

General Background

Chartered in 1766 as Queen's College, Rutgers, The State University of New Jersey, is the eighth oldest institution of higher learning in the United States. It has a unique history: from its inception as one of the nation's nine colonial colleges, Rutgers grew to become the land-grant college of New Jersey in 1864, and to assume full university status in 1924. Legislative acts of 1945 and 1956 designating it "The State University of New Jersey" qualified it as the youngest of the nation's major public research universities. The University of Newark merged with Rutgers in 1946, and the College of South Jersey in Camden joined in 1950. All of the university's property and educational facilities are imparted with a public trust for higher education of the people of the State.

In the short span of several decades, Rutgers transformed from a disparate collection of schools, geographically dispersed and operating largely independently, into the ranks of the most prestigious educational institutions. That advancement was recognized in 1989 when Rutgers was invited to join the Association of American Universities (AAU). Dedicated to a threefold mission, Rutgers is equally committed to excellence in teaching, scholarship, and public service. Driving all of Rutgers' activities is the defining characteristic of a premier research university: the continuous and vigorous creation of intellectual capital—the new discoveries and insights that drive the advancement of human knowledge and contribute to the improvement of the human condition. The very same intellectual and physical resources that distinguish Rutgers as a comprehensive research university that creates and advances knowledge enable it to provide the kind of education that best prepares its undergraduates to participate in and contribute to today's intricate and fast-changing, knowledge-intensive world.

University Mission

As New Jersey's sole comprehensive public research university, Rutgers, The State University of New Jersey, has the threefold mission of:

- providing for the instructional needs of New Jersey's citizens through its undergraduate, graduate, and continuing education programs;
- conducting the cutting-edge research that contributes to the medical, environmental, social, and cultural well-being of the state, as well as aiding the economy and the state's businesses and industries; and
- performing public service in support of the needs of the citizens of the state and its local, county, and state governments.

Each component of the university's mission reinforces and supports the other two. For example, research creates the new knowledge so necessary to support quality instruction and innovative public service. The mission of the university is accomplished through its three regional campuses (Camden, Newark, and New Brunswick) and the New Jersey Agricultural Experiment Station, which complement and support each other, permitting the most effective use of state resources.

University Campuses and Academic Structure

New Brunswick is the birthplace of Rutgers and is home to the university's largest campus. The New Brunswick Campus actually comprises five smaller campuses, each reflecting the university's historical evolution: the College Avenue Campus in New Brunswick (74 acres)—the site of Rutgers College, as original Queen's College was renamed in 1825; the Cook Campus in New Brunswick and North Brunswick (753 acres)—originally the site of the experimental farm of the land-grant Rutgers Scientific School, later Cook College, and now the School of Environmental and Biological Sciences; the Douglass Campus in New Brunswick (150 acres)—site of the New Jersey College for Women, later renamed Douglass College; and across the Raritan River, the Busch Campus in Piscataway (771 acres)—site of many science facilities; and the Livingston Campus in Piscataway and Edison (935 acres)—site of Livingston College, founded in 1969 as a shared learning community committed to academic innovation and excellence. In March 2006, the university approved the restructuring of undergraduate education in New Brunswick resulting in the merger of the university's four liberal arts colleges of Douglass, Livingston, Rutgers, and University College into a single "School of Arts and Sciences."

Tracing its origins to 1908, Rutgers–Newark today is housed on 38 acres in the downtown area of Newark, New Jersey's largest city. It is the northernmost campus of Rutgers, located just 20 minutes from New York City. The Camden Campus (29 acres) is located in the heart of the Camden Waterfront and metropolitan Philadelphia region. It began in the 1920s as an amalgam of the College of South Jersey and the South Jersey Law School.

In total, the university operates research and instructional facilities on 5,973 acres in 13 counties and 28 municipalities. As of September 2009, university degrees are awarded by 27 schools and colleges. In New Brunswick, 13 colleges and schools offered degrees; in Newark, eight colleges and schools offered degrees; in both Newark and New Brunswick, the Rutgers Business School: Graduate Programs—Newark and New Brunswick offered degrees; and in Camden, five colleges and schools offered degrees.

In June 2008, the Middle States Commission on Higher Education (MSCHE) reaffirmed the university's accreditation without conditions. Certain programs at the university are also accredited by professional accreditation associations. Among these include the AACSB International—The Association to Advance Collegiate Schools of Business; the Accreditation Board for Engineering and Technology, Inc. (ABET); and the Association of American Law Schools and American Bar Association.

DEFINITIONS

Branch Campus - A location of an institution that is geographically apart and independent of the main campus of the institution. The location is independent if the location: offers courses in educational programs leading to a degree, certificate, or other recognized educational credential; has its own faculty and administrative or supervisory organization; and has its own budgetary and hiring authority.

Additional Location - A location, other than a branch campus, that is geographically apart from the main campus and at which the institution offers at least 50 percent of an educational program.

Other Instructional Sites - A location, other than a branch campus or additional location, at which the institution offers one or more courses for credit.

Distance Learning Programs - Yes or No indicates whether or not the institution has been approved to offer one or more degree or certificate/diploma programs for which students could meet 50% or more of their requirements by taking distance learning courses.

EXPLANATION OF COMMISSION ACTIONS

An institution's accreditation continues unless it is explicitly suspended or removed. In addition to reviewing the institution's accreditation status at least every 5 years, actions are taken for substantive changes (such as a new degree or geographic site, or a change of ownership) or when other events occur that require review for continued compliance. Any type of report or visit required by the Commission is reviewed and voted on by the Commission after it is completed.

In increasing order of seriousness, a report by an institution to the Commission may be accepted, acknowledged, or rejected.

Levels of Actions:

Grant or Re-Affirm Accreditation without follow-up.

Defer a decision on initial accreditation: The institution shows promise but the evaluation team has identified issues of concern and recommends that the institution be given a specified time period to address those concerns.

Postpone a decision on (reaffirmation of) accreditation: The Commission has determined that there is insufficient information to substantiate institutional compliance with one or more standards.

Continue accreditation: A delay of up to one year may be granted to ensure a current and accurate representation of the institution or in the event of circumstances beyond the institution's control (natural disaster, U.S. State Department travel warnings, etc.)

Recommendations to be addressed in the next Periodic Review Report: Suggestions for improvement are given, but no follow-up is needed for compliance.

Supplemental Information Report: This is required when a decision is postponed and are intended only to allow the

institution to provide further information, not to give the institution time to formulate plans or initiate remedial action.

Progress letter: The Commission needs assurance that the institution is carrying out activities that were planned or were being implemented at the time of a report or on-site visit.

Monitoring report: There is a potential for the institution to become non-compliant with MSCHE standards; issues are more complex or more numerous; or issues require a substantive, detailed report. A visit may or may not be required.

Warning: The institution appears not to be in compliance with one or more of the Commission's standards. A monitoring report is required, with or without an on-site visit. A "Public Disclosure Statement" is issued by the Commission.

Probation: The institution fails to meet one or more standards. A monitoring report is required, with or without an on-site visit. A "Public Disclosure Statement" is issued by the Commission.

Suspend accreditation: Accreditation has been Continued for one year and an appropriate evaluation is not possible. This is a procedural action that would result in Removal of Accreditation if accreditation cannot be reaffirmed within the period of suspension.

Show cause why the institution's accreditation should not be removed: The institution is required to present its case for accreditation by means of a substantive report and/or an on-site evaluation. A "Public Disclosure Statement" is issued by the Commission.

Remove accreditation. If the institution appeals this action, its accreditation remains in effect until the appeal is completed.

Other actions are described in the Commission policy, "Range of Commission Actions on Accreditation."
